Does 2D artwork need to be framed?

Yes. All artworks need to be able to be hooked onto our gallery hanging system.

Framing your artwork is the best way to protect your artwork especially if it is a delicate drawing or painting on paper. You can find out more about our hanging system here:

Canvases on a stretcher do not need to be framed as long as they are strung on the back.

We also have a frame hire service, please email for details.

Yes, your artwork can be for sale.

Please note Aire Place Studios take a 25% commission on any sales.

What if I cannot make the drop off or collection dates?

Unfortunately we cannot accept the artworks outside of the drop off and collection dates.

However you can arrange for someone else to drop off or collect the work on behalf.

If you do not collect your work on the specified dates your work will be destroyed.
